

Armed Forces Football on CBS Sports Network

CBS Sports Network is home to Army, Navy and Air Force football games. It is the only network that allows fans from ALL service academies to watch their team's dedication on display.

Featuring thirteen (13) Army, Navy and Air Force football games, CBS Sports Network also gives viewers an inside look into the preparation, dedication and integrity of the service academy teams and the young men who take the field each weekend. In addition to being broadcast throughout the U.S., the games are broadcast live overseas to *loyal service academy alumni, military leadership, Department of Defense* and 1.1 million *service members and their families* serving around the globe in 177 foreign countries.

Through our relationships in the public sector and military, FSG builds and promotes the Armed Forces Football brand naturally and throughout the Washington, D.C. area. Additionally, FSG sells advertising on the network and sponsorships for special programming and special events.
